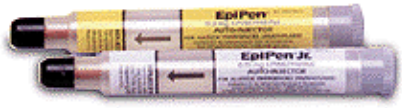
The EpiPen is self-injecting. It is used in cases of anaphylaxis of any cause.



Directions for use:

- Remove gray safety cap and grasp EpiPen with your fist
- Press the black end of EpiPen against outer thigh until you hear a click and needle is released. EpiPen is designed to be used through clothing if necessary.
- **Maintain EpiPen in position for 10 seconds**
- Remove EpiPen, call 911 for immediate follow up and send the pen with the caregiver to the emergency room.
- Use care with exposed needle. Destroy needle by placing a penny into empty tube and inserting spent pen. New packaging allows inserting the pen without a penny.

Full Allergy Action plan has been implemented.
